

A. SRINIVASAN

FULL STACK WEB DEVELOPER | AI & DATA-DRIVEN APPLICATIONS

Salem, Tamil Nadu, India | +91 6383015747 | arulkrish73@gmail.com | linkedin.com/in/srinivasan-a-412283312 | github.com/madarasrini

PROFESSIONAL SUMMARY

Computer Science undergraduate and Full Stack Web Developer with hands-on experience building **React, Next.js, Node.js, TypeScript, Python, AI-powered and data-driven applications**. Experienced in e-commerce, employment platforms, fraud/spam detection, healthcare AI, data analytics, UI/UX, prompt engineering and hackathon product development.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, C, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Node.js, Express.js, FastAPI

Databases: MySQL, MongoDB, SQLite, SQLAlchemy

AI & Data: Generative AI, Gemini API, Prompt Engineering, Machine Learning Fundamentals, Fraud & Spam Detection, Data Analysis, Statistics

Tools & Platforms: Git, GitHub, VS Code, Linux, Windows, macOS, Figma, Postman

Other: UI/UX Design, REST API Development, Cybersecurity Fundamentals, Public Speaking, Problem Solving

PROFESSIONAL EXPERIENCE

Research & Development Specialist | Super Duper Techno | Aug 2026 – Present

Part-time | Remote, Tamil Nadu, India

- Contribute to R&D and product development by applying UX research and prompt engineering to prototype and refine software concepts.
- Translate user needs into prototype improvements, helping refine usability and product workflows during early-stage experimentation.

Full Stack Engineer Intern | Elythra Edufyi Tech Solutions | May 2026 – Jul 2026

Internship | Remote, India

- Delivered an E-Commerce Web Development project across the full development lifecycle, from implementation and UI development through project completion.
- Implemented responsive front-end interfaces using HTML and CSS while following structured UI and Git-based version-control workflows.
- Successfully completed the project within the verified 01 May–01 July 2026 engagement and received an official project-completion certificate.

Campus Ambassador | UNLOX Academy | Aug 2026 – Present

Part-time | Remote

- Drive campus awareness and student engagement for UNLOX Academy through peer outreach and promotion of student-focused programs.
- Create and manage student communities, promote the Job Bridge Program, and facilitate communication between UNLOX and campus networks.

Student Intern – Data Analytics | UNLOX | Aug 2026 – Present

Internship | Remote, Tamil Nadu, India

- Apply foundational data-analysis and analytics practices through hands-on, project-oriented training.

Web Developer Intern | Sai Infotech | May 13, 2024 – May 28, 2024

14-day internship | Coimbatore, Tamil Nadu | Outstanding remarks

- Completed a 14-day Web Development internship, contributing to practical website development and delivery workflows.
- Completed the internship with outstanding remarks and received an official certificate of completion.

SELECTED PROJECTS

Woman Employment Portal — React, TypeScript, Express.js, SQLite/Drizzle, JWT, bcrypt, Firebase, Google GenAI, Recharts

GitHub: <https://github.com/madarasrini/woman-employment-portal-PROJECT>

- Developed a full-stack employment platform designed to connect users with education and employment opportunities through a unified web application.
- Engineered the React/TypeScript frontend and Express.js backend with SQLite/Drizzle data persistence and JWT/bcrypt authentication.
- Integrated Google GenAI, Firebase and Recharts to support AI-assisted functionality, application workflows, and analytics visualization.

RJ Boutique — AI E-Commerce Platform — TypeScript, React, Python, FastAPI, SQLAlchemy, SQLite

GitHub: <https://github.com/madarasrini/rj-boutique-ecommerce>

- Built an AI-powered e-commerce platform combining customer-facing shopping workflows with an admin panel, chatbot, and smart product recommendations.
- Implemented backend services with FastAPI and SQLAlchemy and modeled core e-commerce entities including users, products, carts, orders, and order items.
- Implemented JWT authentication and bcrypt password hashing while developing a responsive web interface for the platform.

Fraud Detection using AI — TypeScript, React, Gemini API

GitHub: <https://github.com/madarasrini/fraud-detection-with-AI>

- Built an AI-powered fraud and spam analysis application that turns message content into an interactive risk-assessment workflow.
- Integrated the Gemini API into a modular TypeScript architecture using reusable components, services, and utility modules.
- Designed an interactive interface that presents AI-assisted message analysis and risk-identification results to users.

MedAlton — AI Healthcare Application — React, TypeScript, Gemini API

GitHub: <https://github.com/madarasrini/MedAlton-final>

- Developed an AI-powered healthcare application using React and TypeScript for a 50-hour Med-Tech hackathon.
- Integrated Gemini API capabilities and organized the application into reusable components, service modules, and utilities.
- Secured 6th Place among participating teams in MEDAITHON, a 50-hour Med-Tech Hackathon organized by SRM Group of Institutions.

APEX HQ — Real-Time Monitoring Platform — React/TypeScript, AI/Image Analysis

GitHub: <https://github.com/madarasrini/APEX-HQ>

- Built a centralized monitoring platform that uses real-time image analysis to support public-safety monitoring workflows.
- Designed an image-analysis workflow that organizes monitoring inputs into an interactive application experience.

EDUCATION

B.Tech, Computer Science and Engineering | SRM Institute of Science and Technology (SRMIST), Trichy | Jun 2025 – May 2028 (Expected)

Diploma in Computer Engineering — First Class | CIT Sandwich Polytechnic College, Coimbatore | Jan 2021 – Jan 2024

PROFESSIONAL TRAINING & CERTIFICATIONS

- Data Analytics Program — UNLOX Academy | Shortlisted & enrolled; batch began Aug 2026
- Getting Started with Artificial Intelligence — IBM SkillsBuild / Credly | Mar 2026
- Statistics Onramp — MathWorks Training Services | Apr 14, 2026
- Claude 101 — Anthropic
- AI Aware Badge — AI For All, United Latino Students Association | Oct 2025
- Get Started with Microsoft Copilot — Microsoft
- Describe the Concepts of Cybersecurity — Microsoft
- JavaScript Basics — UC Davis
- Introduction to Penetration Testing — Security Blue Team

ACHIEVEMENTS & ACTIVITIES

- Finalist, OpenEnv Hackathon × Scaler School of Technology — Team D3CDRS ranked among the top 800 finalists from 31,000+ registered teams; Bangalore, Apr 25–26.
- Secured 6th Place among participating teams in MEDAITHON, a 50-hour Med-Tech Hackathon organized by SRM Group of Institutions.
- Participated in ByteBeat 2025 Ideathon, conducted by the School of Computing, SRM Institute.
- Participated in CODETHON 2026, organized by Rathinam Group of Institutions.
- Participated in NOOBFEST 2026, organized by SRM Group of Institutions.
- Recognized public speaker with multiple speech competition achievements.
